

TESTIMONIALS FOR NETWORKING SKILLS TO PROGRESS YOUR CAREER AND CREATE OPPORTUNITIES

I attended the Networking workshop run by Joanna recently. It was a great half day event done in a very professional manner and offering very valuable insight into how to maximize networking. I came out feeling that I have learnt many new things and I recently had a chance to apply the different key points I learnt, which was very successful. Thank you Joanna. I would highly recommend her workshops and am already keen to sign up for some other ones myself.

Indre B, Business owner, Wealth Management

Joanna certainly knows about networking! I can recommend without hesitation her 'Networking Skills' workshop. I recently attended this workshop as I wanted to understand more about networking - why you need to do it and how to go about it. I feel like the workshop delivered exactly what was promised. It was attended by other like-minded people so it was great to hear their experiences as well. Joanna has great advice, a sensible approach and a lot of first-hand experience that she is very happy to share.

Andrea H, Finance Director

I recently attended one of Joanna's networking skills events and I came away feeling inspired and content. Joanna shared with us practical and thorough tips about how to network while also sharing some of her own experience. A rich and worthwhile event. Joanna is a great model, what she talks about, teaches, and shares, you can see in her. She is professional, very personable and a skilful communicator. Thank you, Joanna

Karen L, Coach
